About the Apartment

While there are many furnished apartments in Dlf Park Place which are offered by various service providers, however, every now and then, there are some exclusive apartments that come in the market place, which are better quality and better furnished, mostly these are apartments that have been created by owners for their own use and not for the purpose of rentals. There is a noticeable difference in the furnishing quality of apartments that have been done by an owner for themselves vs. apartments that are done up for the purpose of only creating a rental income. This is obvious, considering the fact that when an owner furnishes an apartment, there are a lot of thoughtful touches that go into the property. However, this may or may not be true in all cases of furnished apartments.

Today, we are sharing one such apartment that has recently become available and is a notch above any other furnished apartment that is in the offering at DLF Park Place. The primary reason for letting this one out is that the owners are moving out of country, the good thing about this furnished apartment in Dlf Park Place is the fact that the owners have recently furnished it and have lived in only for a few months and everything inside the apartment is as good as new.
